### Summary

---

I am a third-year BTech student specializing in Computer Science and Engineering with a strong foundation in coding using Java and computer networks. I am a Red Hat Certified System Administrator with a solid understanding of operating systems. Currently, I am expanding my expertise by learning AWS Cloud Technology.

### Skills

---

#### Cloud Technologies:

- AWS Cloud Technology (Currently Learning)

#### Networking:

- Basic Knowledge of Computer Networks
- IP addressing, subnetting, Routing, Switching

#### Programming Languages:

- Java, C++ with OOPS concepts

#### Operating Systems:

- Red Hat Linux (Certified System Administrator)
- General Operating Systems Knowledge in Linux OS
- Cronjobs, Network configuration, memory management, etc..

### Education

---

#### Bachelor of Technology (BTech) in Computer Science and Engineering

CGPA 8.4

Aditya College of Engineering and Technology (affiliated by JNTUK University), Surampalem.

(Expected Graduation: 2026)

- Current Year: 3rd Year

#### Higher Secondary Education (11th and 12th Grades)

Percentile 88%

Prathibha Junior College, Rajahmundry

2022

### Courses and Certifications

---

- Certified as Red Hat Certified System Administrator
- Certified as IT Specialist in Java
- Certified as IT Specialist in Python
- Certified as IT Specialist in HTML and CSS

### Interests & Hobbies

---

- I watch a lot of films which are having plot twists
- I do photography in my free time

### Projects

---

- Developed a secure network architecture within AWS to ensure secure access to VPC resources. The project involved the creation of a Virtual Private Cloud (VPC) with both public and private subnets.
- Created a leaderboard application to rank individuals based on the number of coding problems they solved, using Java for backend logic and MySQL for database management.

### Languages

---

- English
- Telugu
